

CIVIC ADDRESS PROJECT

In order to compile an accurate listing of civic addresses for Emergency Services, the Town will be conducting a master listing of all proper civic address numbers within our community.

This includes site visits to all roads in Pouch Cove to confirm that every household has a physical, visible civic number on their property so Emergency Vehicles are aware of where your property is located.

Those who do not have a physical, visible civic number on their property will be contacted and informed so that it can be done right away.

Over the next few days, you may see some Town Staff driving slowly through the community. Please be advised that this is part of the project and not to be alarmed of any suspicious vehicles.
